The milk is sold for the Bos-It will be found very delicious, but too rich ton market. From former experience in the for dyspeptics.

FRUIT AND GARDENING IN PRANE.—Rev.
R. H. Socley writes from Paris to a member of the harvest Club as follows: "I love to think of " " as a fixure of the place, and of his good influence on its horticultural and point-logical interests. Nevertheleas, his greatest efforts are pigmies compared with what we see here. I have seen pears no less than nine or ten inclus long, well proportion, ed and handsomely ripered. You beat the French in apples, blackberries, and other farm in his provider in the provider in apples, blackberries, and other farm in the provider in apples, blackberries, and other farm in the provider in apples, blackberries, and perhaps in some species of chegries, plums, raspheries and straw berries, but in pears the French sace a wide advantation of the provider of the place. The farmer who is not troubled with unruly cattle.

The France was an account of the place of the plac tage oyst you. Their vegetables are splendid both as to quantity and variety. Some sorts, never seen in our country, so far as my knowledge extends, are here, and would make a great addition to your table comforts. Seeding these makes an American feel that in his in the ground to the special property of gardening has just be.

It is important, also, that farmers and the probable given to abject the special probability of the probable given to abject the special probability of the pro
